Sorry, that was a $10,000 check. I thought this type of behavior was illegal. Perhaps not in Queens County.

The cruelty inflicted onto my father is unacceptable.

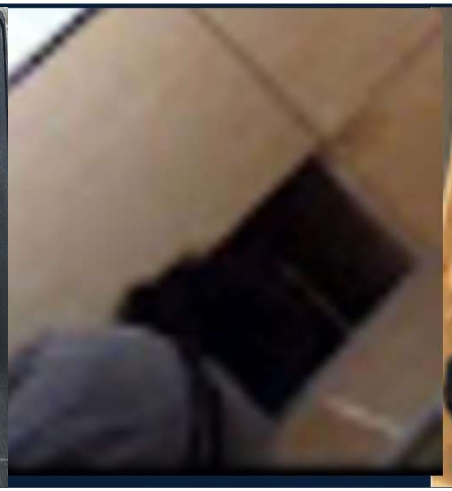

This is the pump pistol the attorney returned after my father threatened to shoot his aide.

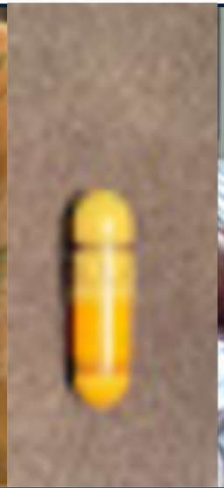

These are the bullets Eileen Kanfer put on my closet.

I have video of Kanfer going through my property

The Flomax capsule I found by my fathers bed and how he lived for the last seven months of his life.

I've sent these photos to APS.

During the last weeks of my father's life it was impossible to reach him by phone. I tried calling, his sister tried calling, and his aide tried calling. His phone would ring, meaning it was charged, but he would never pick up. During a visit I asked where his phone was, he said he didn't know. I asked the nurses station they didn't know. I went into "find my iPhone" and guess what, Eileen Kanfer had his phone. You have a 90 year old man in the hospital and his only means of communicating with the outside world is taken away from him. I hope I don't need to explain what these photos are showing you. May not matter to you but it certainly the hell matters to me.

Today I learned the ADA who advised Eileen Kanfer the person who poisoned my father Robert Silver is Audrey Beerman.

This email was sent today to the DV division. Read my comments, they are shockingly truthful.

ADA Beerman, seems we live in the same building, North Shore Towers building 1, and you have been the person advising Eileen Kanfer how to murder my father and discredit me. I'm sure you are aware, you've succeeded. This explains why Laurie Woods ignored my repeated pleas for help. This explains why APS ignored my repeated pleas for help. This explains why I've been harassed by North Shore Towers Security. This explains why I've been harassed by the police. This explains why after I sent an email to your office police harassment increased. I watched my 90 year old father who suffered from dementia and alzhiermers' being torturously poisoned to death. I was aware NST security had been told to harrass me, now I know it was you.

Please forward to Mr. Liander, my attempts to send are being sent back to me.
Best, Harrison Silver

Mr. Liander,

This email is a followup to the conversation I had with Khadijagh Mohammad-Starling.

I will provide unassailable, evidentiary evidence establishing serious impropriety within the Queens District Attorney's office. Further emails forthcoming.

MISSING FIREARMS:

Reported to Lauri Woods & APS - Suewayne Phillps,Keren Minto. I was ignored.

1. Colt .38 Semi-Automatic - Two Full Magazines
2. Beretta .25 Semi-Automatic - Full Magazine
3. Astra 7.65 Semi-Automatic - Full Magazine
4. Remington 30-06 Lever Action Rifle
5. Crossman - Pump - High Powered BB/Pellet Rifle
6. Daisy - Co2 Powered BB Pistol
7. Daisy - Pump BB Pistol
8. Daisy - Pump Rifle
9. At the time a few hundred rounds of ammunition disappeared. Later discovered in my closet.

I returned the following to the police when it became apparent my father would not be returning home:

1. Rifle 22 - Semi-Automatic
2. Replica - Thompson 44 Submachine Gun
3. Daisy Pump Pistol -The Administrator of my father's estate apparently took and then returned the Daisy Pump Pistol. This was after my father had threatened to shoot his aide while the gun was in his hand.
4. Handed over the recently found ammunition.

Prior to the disappearance - Eileen Kanfer convinced my father I should sneak the Remington Rifle out of the building and store it in the trunk of his car, which I was given permission to drive over Eileen Kanfer's objection. Additionally, North Shore Towers, which has a plethora of video cameras. When I wouldn't touch the rifle, they both became angry.

The second day I was given permission to drive my fathers car, my father called and accused me of stealing the Beretta, he then threatened to report the car stolen if I didn't immediately return home. Eileen Kanfer accused me of taking the gun with a story that was implausible.

A few weeks later she called the police accusing me of having the pistol. I had eight police officers question me, they never asked Eillen Kanfer why she knew I had the gun. I wasn't searched, my closet wasn't searched. This is a false police report and nothing was done.

Best,

Harrison Silver

Subject: False Accusation - HIPPA Violations - Tampering 4th Amendment Rights Violation

Dear District Attorney Katz,

Three weeks ago I sent you an email outlining corruption within your office's. Your response was to have at least six Nassau County Police Officers walk into LA. Fitness, surround me, practically lift me off the ground, which is not easy given I weight just shy of 200 pounds. I was handcuffed, paraded through the gym in front of 150+ people and escorted out while still being grasped and surrounded.

I was placed inside a police car, asked if I was suicidal, which I am not! Then accused of sending Audra Beerman an email threatening to "kill" her. This is 100% a fabrication. As a practical matter, sending you a respectful informative email and then sending ADA Beerman an email threatening to kill her is not logical.

I was then put into a NCPD ambulance, handcuffed to a gurney - involuntarily transported to Nassau County University Medical Center and forcibly admitted into their psychiatric ward. During my three week stay, which ended March 23rd, I repeatedly asked my doctors to produce the threatening email. Of course this proved to be an impossible task. Instead your office sent emails I had sent to your office over the past 3 1/2 years. A diversionary tactic and perhaps effective given the doctors inability to recognize gaslighting.

I question the legality of being forcibly admitted into a psychiatric ward without producing the physical evidence, which the police claimed to have read. Given the seriousness of the charge I would have expected to have been arrested and be provided with legal counsel. Being sent to the hospital, both stigmatizes me and eliminates my ability to have my case adjudicated.

At the end of my first week at NCMU, my case worker received an email from Attorney Joseph Rosenburgh, he was asking what he should do with my property found in my father's apartment after I was evicted. The only people who knew of my hospital admittance were the police, your office and myself. Given I have repeatedly accused Audra Beerman and others of colluding with Joseph Rosenburgh regarding the poisoning of my father Robert Silver, it certainly seems your office provided Attorney Joseph Rosenberg with this information. In fact, Rosenberg contacted my case worker by email, this address had to be specifically given to him. This is indisputable evidence there was an intentional violation of HIPAA privacy laws, which as you know is a federal statute.

As previously referenced, I was evicted from my father's apartment. Two days later I was seized by The NCPD. In addition to my previously sent emails, the doctors had photos taken inside my father's apartment after I was evicted. The doctors also made made reference to items found in my drawers. How would photos taken in my fathers apartment and items found after my eviction make its way to my doctors at NCMU? My question is whether a search warrant was executed or did Joseph Rosenburgh work as an agent for the police to circumvent my fourth amendment rights against illegal search and seizure. There's also an issue with trying to influence my doctors diagnoses by passing illegally seized items.

To review: a false accusation, a violation of the HIPAA statute, an illegal search and seizure and tampering. This was all accomplished within a week.

District attorney Katz, how is this possible?

I contemplate three scenarios - there is a level of embedded corruption that existed before your election, which has been able to inoculate itself from oversight.

If you were told of this fabricated threat, this indicates your subordinates lied to you.

The most troubling scenario is you are aware of this corruption and have done nothing about it. As in Watergate, it will be asked, "what did you know and when did you know it". I hope my worst fears are not realized.

This will be my last email sent to you and your employees.

I am not threatening anyone.

Respectfully,

Harrison Silver

District Attorney Katz,

My name is Harrison Silver, which should be familiar to you, if it is not then important information is being held from you.

For two years leading to my father's death on 7/19/21, I attempted to have your office and NYC APS investigate the abuse of my father, financially, psychologically and physically. He was being poison with prescription drugs, even after the drugs were discover my pleas of help were ignored.

The girlfriend, Eileen Kanfer was administering the drugs, and she was telling people that there was a prosecutor in the building where my father lived, was giving her advice. That person turned out to be Audra Beerman, additionally Laura Woods was aware of the situation.

It worth mentioningI've been harassed by the NYPD and the Nassau County PD from two years before my fathers death, and the 1 1/2 since my fathers death. All told 3 1/2 of harassment.

I have a mountain of admissible evidence of the drugging, abuse of power, obstruction of Justice, betrayal of the public, witness intimidation. There was approximately $150,000 stolen from my father's apartment, which was well known.

I spoke with Kenneth Applebaum and met with four of your detectives, which include Thomas Kaup and Richard Lewis. In both cases the theme was to cover for Beerman and question my credibility.

You need to investigate my accusations. The intensity and coordinated harassment was too seamless to be the first time.

There's no honor amongst thieves, upon questioning the inconsistencies will become obvious within five minutes

I had four Nassau Police cars pass by on this narrow driveway while writing this email - Lakeville Road. I experience the same thing with NYPD.

Best,

Harrison

Good Day,

This PDF attachment includes many of the emails sent to NYC Adult Protective Services. The question was and remains, why were they ignored. The two complaints, which were filed against me provoked APS to pay my father a visit within a days after the complaint was received. Neither myself, nor my father knew there was an investigation. Only when I received a notification that I was exonerate did I learn of the investigation. My father was also surprised upon receiving the notification.

I keep reading about a new generation of prosecutors being hired. I hope these prosecutors will break the culture, the malignant culture of corruption

Audra Beerman, Kenneth Applebaum, Laurel Woods, need to be investigated. They need to explain why my pleas for help were ignored. This neglect caused the premature death of my father, who was drugged and spent his last eight months of his life in a torturous state. During one of his stays at Long Island,Jewish, I asked him how he was doing, he said conscious imagine that, I didn't lead him, he used this word on his own.

I'm in the early stages of pursuing justice with NYAG and since my sister Marisa Silver had an unauthorized $10,000 check cut from my father's checking account and forged his signature. I believe this falls under federal jurisdiction and would be handled by the SDNY.

And this crooked attorney, Joseph Rosenburgh, is wiring my sister all my fathers money, even though my father didn't speak with her for the last two years of his life because she stole $100,000 in cash from his safety deposit box. This is very bad.

It would be helpful if New York's inspector general or the attorney general was made aware.

Best,

Harrison Silver
